For your Gunite Applications

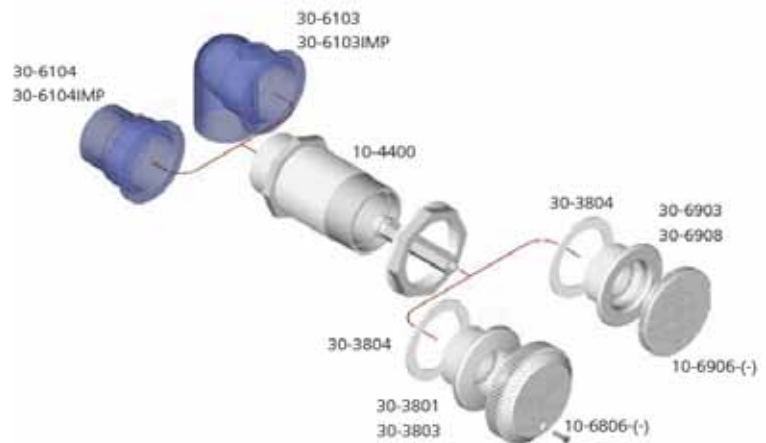

Balboa has a wide range of articles suitable for gunite applications. Gunite applications are special compared to acrylic installations. The main difference is the thick walls that demand extended fittings. The shown products are designed and commonly used for gunite applications.

However, our extensive jet and fitting range can be used for gunite as well.

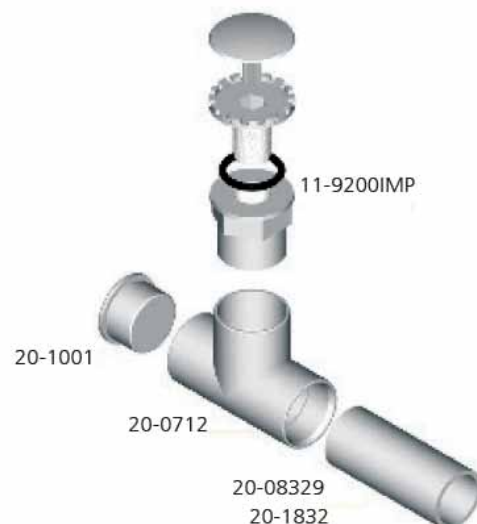

For further information you can always visit our website on www.balboawater.com or contact our Customer Service.

Suctions

AirJet

High volume air jet with 16 side outlets.

GuniteEquipment

Extensive pump range

Balboa offers a broad range of swimming pool and spa pumps.

You can find detailed overview of model ranges, performance, features and benefits on www.balboawater.com

Argonaut

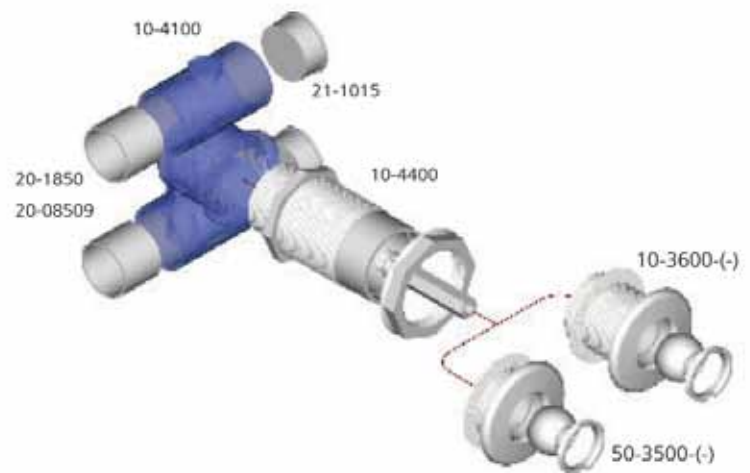

Niagara

AG
