

Bigger Brighter Bolder

The all new SpaTouch2™

spaTouch²™

The All NEW SpaTouch2™ Touchscreen Panel

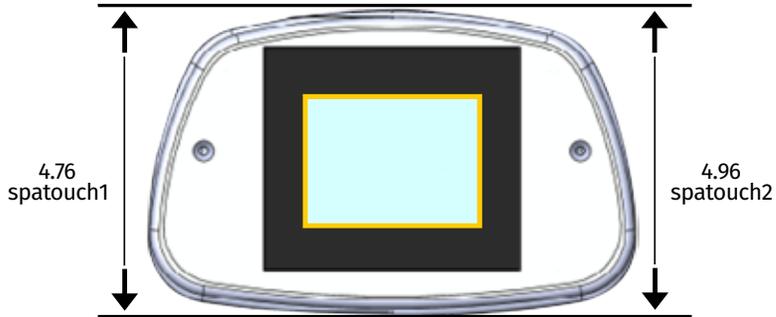

- 4.25" larger screen, making it 40% larger than its predecessor
- Our resistive touchscreen panel looks and feels like a glass display
- The touchscreen panel has the highest touch point density, making it impervious to environmental conditions such as water splashes or contamination
- The touchscreen uses modern technology combined with high quality materials
