With various scent options you are able to truly customize your bathing experience. For the ultimate, insert the bead pouch into the dispenser, and activate either your blower or jet pump depending on your system.

Tranquility

Relax yourself with the sweet, peaceful fragrance of Chamomile. Chamomile is thought to calm the spirit, promote good health, and relieve stress. It is a natural medicinal herb that gently relaxes the mind and body, preparing one for sleep.

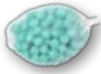

Relaxing

Soothe your senses with the sweet, herbaceous aroma of Lavender. With a peaceful aroma, lavender is a wonder to experience, especially for the nervous system. It has been used to assist in treating depression, headache, hypertension, insomnia, migraine, nervous tension, and other stress related conditions.

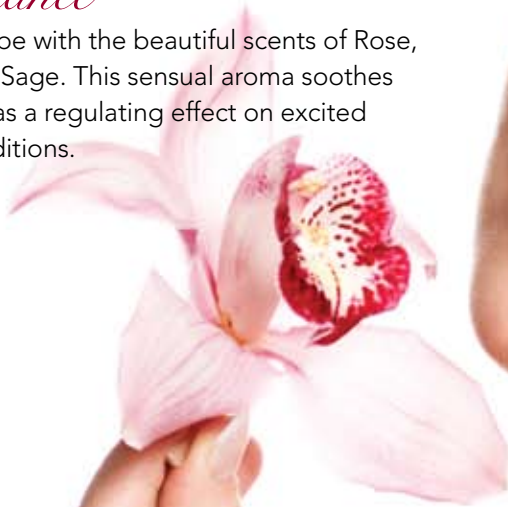

Energy

Refresh and rejuvenate with the aromas of peppermint and eucalyptus. These scents clear the head and soothe the emotions, soothe the digestive system, relieve tired feet and mind.

Romance

Unwind and escape with the beautiful scents of Rose, Ylang Ylang, and Sage. This sensual aroma soothes and uplifts and has a regulating effect on excited and nervous conditions.
